

The Organisation's offices are spread all over the world, their geographical extent and their intensity of Real Existence depending on the number of members present at the same time in the same areas. The existence of permanent offices has been proven in Paris, New York, Uqbar, Saint-Etienne, Bogota, Havana, Tamanrasset, Venice, Iqaluit, Baghdad, as well as in the homosexual areas of Marrakech and Ryad. There are traces of the organisation's presence in Hawaii, Tuvalu, New Orleans, Patagonia and Azerbaijan.

The actual area of influence of the Organisation varies from city to city – in Paris it includes the Jardin Naturel in the twentieth arrondissement and the adjacent alleys, as well as the two nearest metro lines, the entire length of which is permanently patrolled by tramp spies. Public toilets and hostels for illegal workers are the most used meeting places. A trained eye can recognize the Organization's mark in any city, steppe or underwater ruin.

It is provided for in the unwritten statutes of the Organisation that brief meetings with representatives of the Steering Committee (usually of the order of thirty seconds, sometimes more and sometimes much less, the time of a literal blink of an eye, on an underground platform or in the middle of a riot) are possible, at any point in space-time – though usually in the future.

Members of the Organisation or sympathisers wishing to make an appointment with a representative of the Committee usually submit their request by means of hastily scribbled graffiti in public toilets or seemingly innocuous stickers (calls to Jihad, advertisements for erotic telephone services, disappearances of children) to be stuck on walls and poles, within the limits of the Organisation's territory. The answer usually arrives within five years, by the same means, or more rarely also coded in Morse code in the song of a bird or the sound of a car engine starting up; sometimes also written on the T-shirt of a teenager or as a message in a dream. It is not *strictly* impossible that she also comes by mail or telephone.

The appointments granted are extremely rare, of the order of one or two per century, and are usually in exchange for a favour of a sexual nature.
